

PSG Rebrand Portal

Personal login and quick-start guide for Sheyaam Hill

Your login	Details
Email	sheyaam.hill@psg.co.za
Temporary password	PSG123
Login page	https://colourpixdev.github.io/psgrebrand/#!/login
Role	PSG user
Tutorial video	Open tutorial video

The PSG Rebrand app is fully responsive and works perfectly on cell phones as well as desktop computers.

Please keep these login details private. The temporary password is provided for initial access. For a password change, email Francois at

francois@colourpix.co.za

Start here

1. Open the login page and enter your PSG email address and temporary password.
2. Start on Dashboard, then use the navigation to open Projects, Branches, Reports, or Search.
3. Open a project to review its stage, status, dates, files, tasks, comments, and journal history.

What you can do

Area	Use it to
Dashboard	See the current project snapshot, project counts, recent activity, and work that needs attention.
Branches	Browse PSG branches and open the linked rebrand workspace for a branch.
Projects	Review project status, dates, stages, tasks, files, comments, and the project journal.
Reports	Filter project records and export report data to Excel or PDF.
Search	Find visible projects by branch, town, status, stage, manager, or project reference.
Your access	PSG users have view-only access. You cannot edit projects or branches, upload files, change stages, or delete records.

Project workflow

1. Find	2. Review	3. Act	4. Track
Use Search or Branches to locate the right project.	Open the project record and check status, dates, tasks, files, and comments.	Review the available project information and contact the workspace team when changes or uploads are needed.	Use Dashboard and Reports to monitor progress and export a clear summary.

Good practice

Review project information carefully and contact the workspace team when a correction, stage change, or file upload is needed. Keep local copies of important files where required by your team.
